

Welcome

Why Hire Me For Your Home Inspection?

If you are searching for an inspector, I understand that you have many choices. That is why I would like to explain to you why I am the best choice for your home inspector. I realize that this home you are purchasing is a huge investment, and it is my job to do my best to protect you from major defects. My goal is to be prepared when I arrive at the home and to be proud to represent you. I will record all my findings for you, help you understand the implications of the findings, and direct you as necessary to a corrective resolution. My report is computer generated with digital pictures, and arrows pointing to any problems. The report is clear and easy to understand. I will make every effort to discover and report any defects or areas of concern to you. After you review your report, you will feel confident that I was thorough and had your best interest in mind. For personalized service, please call me now to schedule an appointment.

- I can deliver the report over the Internet within 24 hours.
 - I am available 7 days a week.
 - I use HomeGauge inspection software to generate a professional report with a password protected link for viewing. Thank you,
- William Updyke
